

BECOME A PEER RESEARCHER

WHY?

- Work at the forefront of the CLT movement's research into the important question of diversity and inclusion
- Get high quality training in conducting research
- Bring key insights back to your CLT and community
- Real Living Wage Foundation Pay

You will take part in digital training where you will learn basic research skills and help shape this study with input from the Community Land Trust Network.

Supported by The Young Foundation, you will go on and interview CLT leaders and members to hear their views. The insights you gather will be used to create a report that identifies the barriers to greater diversity and inclusion in the CLT movement and suggests ways to overcome them.

Once you've completed the training, you can join The Young Foundation's National Peer Researcher Network and work for the Young Foundation on other topics important to communities across the UK.

Interested?

Apply for a role by completing this [short form](#).

Or if you have questions, drop us an email at:

peerresearch@youngfoundation.org

Not sure whether this is something for you?

If you have any questions about this opportunity, send us an email and we'll arrange a phone call with you

Is the training paid & when is it?

Yes, the training and any work you do is paid Real Living Wage. You will work up to 40 hours in total between January & March 2022.

The main training will take place over 2 days during the 2nd week of January 2022.

Do I need to have experience?

We provide you with training, so you don't need specific experience to be a Peer Researcher. We are looking for people who care about increasing the diversity and inclusivity of CLTs.

You will need to be eager to learn, curious, reliable and open minded to become a good Peer Researcher.

Who do you mean by minority & marginalised groups?

We know that some groups are under-represented in CLTs. We are interested in hearing from people:

- from minority ethnic backgrounds
- who are younger (working age)
- who identify as coming from a lower income background

But if you are interested, please apply!

How does this work during Covid-19?

Our training is designed to be online and you can conduct your research using a smartphone app.

You can choose to interview people in person or remotely if you prefer.
